MINOR PLAN REVIEW OF AN EXISTING
ON-SITE WASTEWATER TREATMENT FACILITY INSTRUCTIONS

INSTRUCTIONS

The Minor Plan Review, also known as a Reconnect/Remodel Review is used to determine if the existing septic system is of sufficient capacity to accommodate flow from a new or replacement structure on the parcel or for a modification to the existing structure or to ensure that any structures added to the property meet all setback requirements. There are several scenarios where property owners may want to utilize an existing septic system:

- Removal and replacement of an existing mobile or manufactured home with a newer mobile or site-built home
- Remodeling of an existing home
- Rebuilding of a home which has been damaged or destroyed
- Purchasing of a lot which has an existing septic system but no existing structure
- Adding a guest house, pool house or other permanent structure to the property

If, after the Minor Plan Review, MCESD determines the existing septic system is inadequate for the proposed changes, an Alteration to replace either the tank or disposal field or a new NOID application to replace the tank and disposal field may be required.

If an inspection is required at the site for the Minor Plan Review, request an inspection by phone (602-506-1787), E-Mail (SepticQuestions@maricopa.gov), on-line (<https://www.maricopa.gov/FormCenter/Environmental-Services-16/Onsite-Wastewater-Systems-Program-Inspe-90>) or fax (602-506-6925). Have the permit number available when requesting the inspection. Instructions on how to proceed will be provided.
